

ORGANIZATION COMMITTEE

"HOLOGRAPHY EXPO - 2009"
6th International Conference

**Organizing committee and Organizers of
the 6-th International Conference "HOLOEXPO-2009"
invite you to take part in Conference which will be held on
July, 1-2, 2009, Kiev, Ukraine, at International Business Center "RUS".**

The goal of the Conference is to estimate and determine the strategic directions of Holography market development in Russia and abroad. The Conference will consist of the specialized exhibition and scientific-practical conference "Holography - Science and practice".

Official Conference Organizers: Bauman Moscow State Technical University (Moscow, Russia), NPO "Krypten" (Dubna, Russia), "Holography - Service" Ltd. (Moscow, Russia), Russian fund of fundamental researches (Moscow, Russia), JSC "HoloGrate" (St.Petersburg, Russia), JSC "Holography Industry" (Minsk, Byelorussia), SP "HOLOGRAPHY" (Kiev, Ukraine) and Institute of Semiconductor Physics, National Academy of Sciences of Ukraine (Kiev, Ukraine).

Arranger: SP "HOLOGRAPHY" (Kiev, Ukraine).

Conference and exhibition are organized under support of:

- *National Academy of Sciences of Ukraine (NASU);*
- *State organizations of SIS:* Expert criminalistics center of Ministry of Internal Affairs of Russia; Scientific research institute of criminalistics of Federal security service of Russia;
- *First-rate universities and institutes of the Academy of Science SIS:* Bauman Moscow State Technical University, Scientific and Technological Center of Unique Instrumentation of Russian Academy of Science, Lomonosov Moscow State University, the Samara Space University, Lebedev Physical Institute of RAS (FIAS), Russian Research Institute for Optical and Physical measurements, Institute of Automatics and Electrometrics the Siberian Branch of the Russian Academy of Science and - *And leading foreign firms and enterprises:* Specialized enterprise "HOLOGRAPHY" (Kiev, Ukraine), JSC "Holographic Industry" (Minsk, Byelorussia), Open Company " NPF " the Center of Laser Technologies" (Alma-Ata, Kazakhstan), "Process Color" (India), "Applied Optical Technologies plc" (UK), "De La Rue Holographic" (UK), "Leonard Kurz" (Germany), Center for Development of Imaging Technology (C-DIT) "Holographic and Optics" (India), "OpSec" (UK), "Centro Grafico dg Spa" (Italy).
- *International Association of Manufacturers of Holograms (IHMA, UK, President Ian Lancaster).*

Within the framework of the specialized exhibition "HOLOEXPO-2009" the following thematic sections will be presented:

- Security holography and its application;
- Holographic optics, 3D holographic display systems, optical memory;
- Art holography, holographic packaging;
- The equipment, technological processes and materials for holography.

The program of scientific-practical conference "Holography - the science and practice" includes the following sections:

30th June 2009 – registration of participants from 10-00 till 18-00.

1st July 2009 – session time from 10-00 till 18-00, 15 reports per 20 minutes each.

1. Security holography: · holographic production marketing for protection against counterfeiting and falsifications of documents and goods; · scientific and technical engineering in area of analog and digital technologies of security holograms recording; · optical-electronic devices and hidden images reading devices, security holograms coding images reading and its applications for security papers and bank technologies; · security holograms identification; · low aspects of security holograms application.
2. Art holography and its application, including photographic materials, photo resistors, photopolymers and other registering environments for holography. **Banquet 19-00 till 21-00**

2nd July 2009 – session time from 9-30 till 18-30, 20 reports per 20 minutes each.

3. Computer and optical-electronic technologies in hologram optics synthesis, hologram and diffraction optical elements (HOE-DOE) and its application in science and engineering.
4. Three-dimensional objects imaging with the holograms application and 3D holographic displays.
5. Optical-holographic memory systems, optical information processing and holographic filters, waveconducting holography and its application.
6. Holographic and speckle interferometry and its applications.
7. Holographic packaging and its application.
8. The industrial equipment, technological processes and materials for holograms recording.

1-2 July there will be placed poster reports, 3rd July – cultural events.

To take part in conference with report you should send us 1 page report abstract in English (font 12 Times new roman or Arial, format MS Word2000, files *.doc or *.rtf) before **1st March 2009** on E-mail: info@osa.org.ua.

The conference fee for participants who make a report is **250 dollars USA** (for 2 participants of the conference - 10 % discount; for 3 participants of the conference - 20% discount). In case of presentation at conference co-participants the conference fee is equal to the payments from participants of conference without the report.

The conference fee for participants who will not make a report is **500 dollars USA** for one person (for 2 participants of the conference - 10% discount; for 3 participants of the conference - 20% discount). It includes conference materials and conference reports, coffee break, lunch.

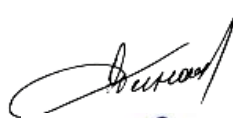

The application form for participation at the conference can be found at the site www.holograms.ru. Official languages of the Conference and Conference are **Russian and English**. The synchronous translation from Russian into English and from English into Russian will be provided. The conference Program (in process of reports receiving) will be published at the official website www.holograms.ru and www.osa.org.ua presented in April 2008.

The Organizing committee of Conference can help you with the room reservation under the special prices at the hotel Rus (Kiev, Ukraine).

For room reservation is necessary to send the application in any form with dates of entrance and departure by fax +380-44-525-54-30 or on E-mail: sekret@spie.org.ua before **01st March 2009**.

The Chairman of organizing committee

S.B.Odinokov

Deputy chairman of organizing committee

G.Beilin

Sergey Kostyukevych, Fellow of SPIE 2005,
Head of Department for Optic and Optoelectronic Registering Media,
V. Lashkaryov Institute of Semiconductor Physics, National Academy of Sciences of Ukraine
41, prospekt Nauky, office 219, Kyiv 03028, Ukraine
Phone: +380 (44) 525-62-05, Fax: +380 (44) 525-54-30,
